RUSSIA CAN'T KEEP HER HANDS OFF IT.

Demands from China Virtually the Sovereignty of Manchuria.

PRINCE CHENG OF THE FOREIGN OFFICE IS INFORMED THAT NO FURTHER STEPS IN EVACUATION WILL BE TAKEN UNTIL AN AGREEMENT IS SIGNED TO THAT EFFECT—JAPAN EXCITED AND THREE WARSHIPS WILL BE SENT OUT.

(BY THE ASSOCIATED PRESS—P.M.)
PEKING, April 23.—[By Asiatic Cable.] Russia has demanded that China sign an agreement practically ceding to her the sovereignty of Manchuria and excluding other nations from that country. The Russian Chargé d'Affaires, M. Platonov, has informed Prince Cheng, president of the Foreign Office, that no further steps in the evacuation of Manchuria will be taken until this agreement is signed.

There has been much feeling in British circles over the appointment of a Russian commissioner in New Chwang, but this revelation of Russia's determination to retain control of Manchuria and close the door there to other nations has excited the Japanese. The Chinese court returned to the Forbidden City today with a spectacular procession from the Hunting Park.

After September it steadily fell off. Commissioner Ware said today that the decline was due to suffering and deaths among the old and feeble veterans in the fall and winter, caused by the scarcity of fuel resulting from the coal strike.

better results if the spirit prompting gifts to the church was absent. Bishop Moreland said that the great board of missions in New York had proved that it was the finest board in management in the world.

CHARGES AGAINST BISHOP. (BY THE ASSOCIATED PRESS.—P.M.) SAN FRANCISCO, April 23.—The Episcopal Board of Inquiry which is investigating the charges preferred against Bishop Moreland, resumed its session this afternoon and met again tonight. It was announced that the board would reconvene tomorrow, and it is inferred that the matter is still being considered. It is said that nothing will be made public until the board has sent its final report to the senior bishop of the Episcopal church.

CORNEY'S BOARD. WHAT IT COST THE BARBERS. (BY THE ASSOCIATED PRESS.—A.M.) SACRAMENTO, April 23.—The late Legislature abolished the State Board of Barber Examiners, which had been created in 1901. The return made to the State Controller show that during its existence the commission collected \$11,401 and its expenses were \$11,302.52, leaving a balance to the state of \$98.48. The Barbers' Board of Examiners settled with the State Controller today.

COURT INVESTIGATION. SANFORD ESTATE EXECUTORS. (BY THE ASSOCIATED PRESS.—A.M.) SAN FRANCISCO, April 23.—Dr. C. N. Ellwood, Prof. George Davidson and Andrew S. Moseley, executors of the will of the late Josephine Sanford, who have been accused of the misappropriation of the funds of the estate and otherwise violating their trust, strenuously deny the charges preferred against them and court a thorough investigation of their management of the Sanford estate. A petition asking for the removal of the executors, Charles Sanford alleges that \$50,000 received from rentals of the estate has been unaccounted for by the executors.

THREE MEN KILLED. EXPLOSION IN MINE. (BY THE ASSOCIATED PRESS.—P.M.) REDDING, April 23.—Three men are dead and a fourth probably fatally hurt as the result of an explosion of dynamite in the Chloride Bailey mine near Dunderberg, Trinity county, today. A courier, who went to Junction City, a distance of fourteen miles, the nearest telephone point, to send to Weaverville for a doctor and the Coroner, knows the names of but two of the victims. They are Fred Linden and Joe Wilbur, both dead. The courier's story is to the effect that Linden and Wilbur were working at the breast of a drift. One of them is presumed to have dropped a box of powder. There was a terrific explosion, shaking the entire mine. Two miners on the same level, whose names the courier does not know, went to investigate. The two investigators were probably killed by poisonous gases, and when the main body of the miners reached the scene from the other levels they found one of them dead, and the other in a precarious condition.

McBride of Washington in his demand for the woman, is synonymous with "authentic."

It shows the total registration for the college year to be 1,458, which is larger than that of any preceding year, and an increase of 188 over last year. The most notable change is that the college year will begin August 21, a date several days earlier than usual. Actual instructions will begin August 27, nearly two weeks

BEST PROSPECTS IN SCORE OF YEARS.

(BY DIRECT WIRE TO THE TIMES.)

CHICAGO, April 23.—[Exclusive Dispatch.] W. B. Biddle, freight traffic manager of the Santa Fe, returned today from California, filled with enthusiasm regarding the prospects of that State and the West.

"I have been going to California for twenty years," he said, "and never in that time did California have the prospect she now has. One of the principal reasons for this is the abundant rain the State has enjoyed for two years and from which benefits will be reaped for many years. After passing through what was practically four years of drought, California has been getting for two years over eighteen inches of rain, instead of nine or ten or twelve. The drought has taught her people to invent ways of securing and keeping water, and the reservoirs, which have been dry for several years, are running over. Up in the foothills, I saw water stand where I had not seen it before in many years."

"Through New Mexico, the condition is similar, and the year's sheep-shearing promises to be a record-breaker. Kansas, Oklahoma and Indian Territory will have the biggest wheat crop in their history, and you will find that all western roads will have their hands full in handling traffic this year."

Earlier than heretofore. Commencement exercises will be held May 13.

Madden-Roll Nuptials. SAN JOSE, April 23.—Miss Julia S. Roll, daughter of John Roll, chairman of the Board of Supervisors was married at her home in Santa Clara at 1 o'clock today to William A. Madden, superintendent of the County Infirmary. The gifts were handsome and costly. The young couple will spend their honeymoon in Southern California. The bride is a graduate of the high school and a social favorite.

Apricot Crop Short. SAN JOSE, April 23.—Careful estimates place the coming apricot crop in the valley at about one-third of full. The apricots are setting nicely and unless something unforeseen occurs the crop will be a large one.

(BY THE ASSOCIATED PRESS.—A.M.) LONDON, April 23.—[By Atlantic Cable.] The War Office today received from Brig.-Gen. Manning, in command of the British forces in Somaliland, a dispatch dated twenty miles westward of Galdadi, Somaliland, April 18, as follows:

"I regret to report that a flying column under the command of Col. Cobbe, which left Galdadi April 10 to reconnoiter the road to Walwal, had a most serious check, April 17. Keep Posted On Styles.

Ask for a Regal Catalogue; you will find it valuable; it will keep you posted on the correct styles in both men's and women's shoes. Compare the illustrations of Regal Shoes with the styles displayed in the highest priced stores. You will find that the Regal styles are exactly the same. The reason why such a high grade shoe as the Regal can be sold for only \$3.50 is because it comes direct from the maker to the wearer, thus getting it to your hands by the shortest and most economical route.

THE CITY IN BRIEF

NEWS AND BUSINESS

Clothing Stolen.

The tailor shop of T. P. Lyons, No. 2117 Downey avenue, was burglarized Wednesday night, entrance being effected by forcing the front door. An overcoat and other articles of clothing were taken.

Between Cars.

E. Probst was severely injured yesterday afternoon on North Main street between electric cars. He was riding a wheel, and in attempting to pass between the cars was caught and his body crushed. He was taken to the Emergency Hospital, where it was stated last night his injuries are not very serious.

Verdict of Accident.

The coroner held an inquest yesterday on the body of Conductor Penniman of the Los Angeles Railway Company, who was crushed to death between cars Tuesday night. The jury returned a verdict of accidental death. The evidence showed that the death of the man was the result of his own carelessness.

Council on Education.

A meeting of the California Council of Education will be held tomorrow in the San Francisco State Normal School. The topics for discussion will be "Compulsory Education," "What Text-Books Need Revision?" "Life Tenure of Teachers." It is expected that Gov. Fawcett will be present.

Burned by Live Wires.

Peter Becker, a house mover, whose home is at No. 509 East Fourteenth street, was severely burned yesterday morning by coming in contact with live wires at Fourteenth and San Pedro streets. He was moving a house and while on top caught hold of wires to raise them above the roof. Becker's hands were burned and he was much scorched about the lower portion of the body.

Missouri Meeting.

The third meeting of the Missouri State Society was held last night at No. 327 1/2 South Spring street. About 200 were present. The evening was devoted to business. A constitution and bylaws were adopted and an Executive Committee was elected, composed of Messrs. W. H. Workman, C. H. Hancock, H. A. Wade, Lee A. McConnell and W. J. Higgins. The society now numbers 200 members.

Tyndall and Spiritualism.

"What there is to Spiritualism" is to be the subject of a lecture by Dr. McVoy-Tyndall at Blanchard's Hall Sunday afternoon at 2:30 o'clock. McVoy-Tyndall has made a thorough study of the phenomena produced by spirit mediums, and undoubtedly can give reliable points. While he has always disclaimed any supernatural power in making his own demonstrations, spiritualists are strongly of the opinion that he is aided by invisible forces.

Afraid to Return.

John B. McCain, a sailor who says he is a deserter from U.S.S. Marblehead, now lying at San Diego, approached Patrolman Zeigler yesterday morning and asked to be locked up as a deserter. He said he left his vessel only the day before, fearing to return because certain members of the crew might assault him for not having paid money he had borrowed between pay days. He will be held until the commanding officer of the Marblehead can be communicated with.

Tunnel Car Franchise Meeting.

The question of a franchise for a trolley line through the Third-street tunnel will be discussed tomorrow evening in Blanchard's Assembly Hall at a meeting of the Crown Hills District Improvement Association. A large attendance is expected as citizens of that district are deeply interested. It is said that many property owners west of the tunnel are in favor of running a car line through. The tunnel is the same width as the Macy-street bridge, on which is a car track, a good wagon road, and ample sidewalk.

Liquid Air Benefit.

The Los Angeles Theater was filled with an interested audience last night to hear Prof. G. A. Robrick's lecture on liquid air and witness his experiments with this element. The speaker held the close attention of the audience, and the wonderful powers of liquid air were demonstrated by the burning of bars of steel, boiling a teakettle on ice, melting coins and freezing minerals, etc. The experiments consumed ten gallons of liquid air. Prof. Robrick demonstrated the possibilities of its use for street lighting, and declared it would cost one-fourth less than present systems. He said he hoped that Los Angeles, first to use electricity for lighting and rapid transit, would be first to install a liquid-air street-lighting plant. The lecture was given for the benefit of H. D. Watts, an engineer whose hand was crushed off, and \$400 was raised.

BREVITIES.

Jerome Canon Copper Co. just received a block of bullion from their mine. It was smelted from ten and one-half pounds of ore, giving copper, gold and silver total values as per assay, \$97.50 per ton; weight of metal bar is five pounds. It is beautifully engraved with the company's name, values, etc. It is now on exhibition for a day or two in the show window of Montgomery Bros., Spring st., near Second, and is worth a visit to see.

STRONG WITNESS FOR KELLY.
BUTTE (Mont.) April 23.—A second dying statement of Dr. Cayley, was admitted today in the trial for murder of former Editor J. W. Kelly. Chief of Police Reynolds, who was put on the stand, created a sensation by stating that when Dr. Cayley signed the statement he was too far gone to realize what was being read to him, and hardly heard what was said. Chief Reynolds was a strong witness for the defense.

LYNCHING IN ARKANSAS.

The dispute arose over medical services, which the negro refused to pay. Thompson was placed in jail, and shortly after midnight a mob quietly surrounded the jail, and took possession of the negro. His body was found today hanging from a railroad trestle near here. No further trouble is anticipated.

THE PUBLIC SERVICE—IN THE COURTS AND OFFICES.

SUMMARY OF THE DAY.

It was stated yesterday that the blanket franchise will not be ready for presentation at the session of the Board of Public Works this afternoon.

The Board of Public Works drove over the route of the Scheller franchise application yesterday and it is probable that the franchise will be favorably reported today.

Agents of the electric and telephone companies expressed alarm yesterday at the agitation for a tax on poles.

Frank Metzger was convicted last night of the Pasadena car hold-up.

Miriam Bruce is suing T. B. Bruce for divorce in Judge Trask's court.

In the Police Court yesterday, McNulty and McDonald, charged with robbery, were discharged from custody.

AT THE CITY HALL.

NOTHER PROSPONEMENT OF FRANCHISE HEARING.

BLANKET APPLICATION NOT READY FOR PRESENTATION.

Much Trouble Experienced in Revising the Routes so That They Will Not Conflict With Existing Franchises. Scheller Application.

Another week will elapse before the proponents of the eighty-mile, 3-cent franchise will appear before the Board of Public Works, and ask for the advertisement of a concession over the revised routes. It was stated by the representatives of the Clark-Harriman combination yesterday that they do not expect to be prepared to press their application this afternoon at the regular session of the board.

Frank H. Olmsted, engineer for the company, is working night and day preparing the franchise routes. Owing to the chaotic condition of the franchise grants made in past years it is a herculean task to ascertain what streets are open to the proposed new car lines. Blanket franchises have been granted in the past, but they have lapsed either in whole or in part, and an exhaustive research of the records is necessary in an intelligent presentation of the new application. The compilation of a complete franchise index together with a schedule of franchise showing the length of life and streets covered by the City Clerk has facilitated the work of the engineer very much. Owing to the fact that portions of the county have been annexed to the city in recent years an examination of the county records for franchises granted by the Boards of Supervisors has been found necessary.

"I think I must be ready to report by next week," said Mr. Olmsted last night. "I don't believe those who have retained the will wait longer than that. By working night and day the franchise may be put in shape in less time than a week, but I doubt it."

SCHELLER FRANCHISE.

There is every probability that the Board of Public Works will make a favorable recommendation on the franchise application of L. C. Scheller, who desires the sale of a line running through the First Ward to Highland Park and Garfield, with a branch in the direction of the San Fernando Valley. This application is admitted to have been made in the interests of the Huntington Hotel, and it is probable that it is favorably reported this afternoon the Huntington Hotel will have won a victory over those of Senator W.

The Clark-Harriman blanket franchise application contains a route running along nearly the same lines as the one proposed by Scheller, but the points of divergence are said to be of the utmost importance to the rival companies, as small portions of private rights of way are involved.

Yesterday morning the board drove over the proposed route, and expressed approval of the franchise. Other applications will be considered this afternoon.

TO TAX POLES.

COMMITTEE WILL CONSIDER.

This morning the committee on Legislation will have before it the recommendation made by the Southwest Improvement League that a tax of 25 cents a quarter be placed on poles in the streets and a tax of 10 cents a quarter on poles located in the alleys. All the telephone and electric companies, including the railway lines, are excited over the agitation for a tax on poles, and several representatives of the various corporations appeared at the City Hall yesterday.

Attorney Dunn, who represents some of the lighting companies, had a long conference with the City Attorney over the legal aspects of the proposed license, and there will be a gathering of attorneys at the session of the committee this morning unless some arrangements have already been obtained from the members that the petition will not be favorably considered.

Scum on the Water.

Councilman Skilling climbed the hill back of the Sisters' Hospital the other day and took a look at the Beaudry reservoir. Then he hastened to the Health Office and vowed that the Health Officer must do something to better the condition of the drinking water. Skilling declared that there is a coating of green scum all over the surface of the reservoir and that the water is sure to breed disease germs. Superintendent Mulholland of the water department laughs at the fears of the Second Ward Councilman. He says the old reservoir will be abandoned in a week or ten days, but that there is no danger from the water now being served. A portion of the roof of the reservoir recently collapsed and beneath the broken portions of this roof, where the air does not circulate freely, a fungus growth has formed on the water. This growth, the superintendent says, is not dangerous to health. The Beaudry reservoir now supplies that section of the city west of Wilshire Hill avenue and north of Sixth street.

New Mains Planned.

The Water Commission has informed the Council that two new mains will shortly be laid in the Crown Hill district to better supply that section with water. Complaints of inadequate service have been filed with the City Engineer.

President's Speech.

Mayor Snyder believes it impracticable for the President to attempt to address the crowds that will throng on Broadway during the Fiesta celebration. Very few people would be able to hear what the President had to say, it is argued, and the result would be general dissatisfaction. The Mayor believes that the Prager baseball park could be obtained for the day, and

that the President might address the crowd there. The park is situated at Grand avenue and Washington street, and is well located for the purpose. The Mayor believes the backers of the local team in the Pacific National League would be willing to offer the use of the park for the day.

Griffith Park.

At the session of the Park Commission yesterday Col. G. J. Griffith and Superintendent LeGrand were appointed to devise a system of roads and trails through Griffith Park. Col. Griffith stated that topographical maps should be secured of both Elysian and Griffith parks. Maps covering both parks would cost about \$1500. At the present time the city is expending \$7.50 a month in the maintenance of Griffith Park.

AT THE COURT HOUSE.

PASADENA CAR ROBBER METZGER CONVICTED.

HALF-PARALYZED STREET BEGGAR CLINCHING WITNESS.

John Dallas, Who Roomed With the Highwaymen at the Time of the Daring Crime, Gives Picture-Ending to the Trial.

Frank Metzger was convicted last night at 8 o'clock by the Pasadena hold-up jury. It took the jury a short time to find a verdict, one ballot telling the story.

Metzger's trial had a picturesque ending, with the testimony of a street beggar, John Dallas, who, Burke said, in his confession, was the man who helped in the hold-up of the Pasadena car.

Dallas was found to be in jail in Riverside doing thirty days for vagrancy, and the District Attorney had him brought into court yesterday to testify. When Dallas was taken into court and denied it all, Burke coolly explained that this wasn't the Dallas he meant.

When they called his name in court yesterday it seemed as if he were never going to come.

At last, there came a shuffling noise in the corridor and a filthy undergarment street beggar hobbled in, dragging his paralyzed leg with the help of a stick. He looked worn and sick. His dirty corduroy pants gaped open at the waistband, his shoes were run over and torn, and one of his hands was hidden by the other. An old undershirt, dirty enough to turn one's stomach. He must have been a good-looking boy once, but his face now is drawn with lines of pain and suffering.

When he crawled up into the witness chair, the first thing that met his eyes was the hard, cruel face of Burke, the highwayman, who confessed to save Metzger. Burke sat there at the side of Metzger's lawyer, with his shifty, merciless eyes looking straight into the eye of the beggar.

When the boy began to talk he kept his tired, pain-drawn eyes on the floor, and his voice was so faint that it was hardly more than a whisper.

After a minute, the District Attorney asked to have Burke taken out of the courtroom. Metzger's lawyer protested, but Burke had to go.

The lawyer then said if Burke couldn't stay the District Attorney should not be allowed to have the detective in the room.

Dist. Atty. Fredericks waved his hand magnanimously. "Take 'em out, I don't care," he said, and the detective left to follow after.

The beggar said that his name is John Dallas, said he roomed with Metzger, Metzger and Ward (or Ford) at the time of the hold-up. He was not there at the time Metzger was arrested.

Metzger was sitting beside his lawyer, hunched over with his head sunk into his shoulders and his frightened eyes wandering furtively from one face to another as the beggar testified.

He winced when the beggar contradicted the story he had told. Dallas said he had met Metzger in Colton street, a few days before the hold-up, whereas Metzger claims to have arrived in Los Angeles the day of the hold-up and never have been there before.

He said that Metzger came to the room to live three or four days before the hold-up and slept in the bed with Metzger. Metzger and Burke both claim never to have been each other until they were arrested.

Dallas admitted that he was the John Dallas who wrote to Metzger in jail offering to help him. This letter the defense claimed to be from the mysterious John Dallas who helped Burke in the hold-up.

Metzger recovered his spirits during the cross-examination. It developed including the railway lines, are excited over the agitation for a tax on poles, and several representatives of the various corporations appeared at the City Hall yesterday.

Attorney Dunn, who represents some of the lighting companies, had a long conference with the City Attorney over the legal aspects of the proposed license, and there will be a gathering of attorneys at the session of the committee this morning unless some arrangements have already been obtained from the members that the petition will not be favorably considered.

pointing to the hand hidden by the dirty undershirt. The boy obediently took off his filthy coat and drew back the sleeves from a ghastly white claw-like hand, drawn and twisted.

"Straighten out your hand," said Hovey and himself caught hold of the claws and tried to open them out.

The boy looked at him indignantly and said rather pitifully: "Well, can you straighten it?"

Hovey went back to his seat and said, "Well, is there anything the matter with you?"

Judge Smith interfered with a frown at the shake of the head. "No, no, Mr. Hovey," he said. "You have already made an exhibition of him to the jury."

"When the beggar had shuffled off the witness stand, Metzger again testified.

He said that he now remembered having seen this Dallas Coleman and said he was not a cripple then.

After Mr. Fredericks had started in with his argument, he was interrupted and Burke went on the stand again.

He said this beggar boy was not the John Dallas he knew. He said it was not true that Metzger slept with him in the hold-up.

"Who, if anybody, did sleep with you part of the time?"

"John Dallas," said Burke.

"When was it that he slept with you?" asked Hovey.

Then Burke plunged cheerfully into a fatal blunder. All the time he has been saying that Dallas did not meet in Los Angeles until the day of the robbery, which was February 18.

Burke spoke up firmly. "The night of the 17th."

Fredericks laughed and said mockingly: "Well, that will do, Mr. Burke. This man, Burke, said that he didn't meet in Los Angeles until the day of the robbery, which was February 18."

Fredericks made a good argument, made out of bed-rock facts, and good sense, without any attempt at bomb word pictures and imitation pathos or mixed metaphors.

Mr. Hovey followed with a strong argument made of sound sense. Hovey was appointed by the court to defend Metzger, and although he is not getting a cent out of it, he has made as plucky a defense as he could.

The trial of the case between Fredericks and Hovey has been free from the insults and snarls and brawling repartee which often cheapens criminal cases.

MRS. BRUCE SEEKS DIVORCE.

A lurid divorce suit brought by Miriam G. Bruce against T. B. Bruce, came to trial before Judge Trask yesterday. Mrs. Bruce says he was very cruel and used cruel words and scandalous language at her.

Bruce was heard on his court on contempt charges yesterday morning because of unpaid alimony and because he was accused of trying to kidnap their three children. Judge Trask held that the kidnapping charges were not made out and held that Bruce had one more day to pay the alimony.

EVIDENCE INSUFFICIENT TO HOLD THEM FOR TRIAL.

Circumstances Pointed to M'Nulty, but McDonald Was Not Involved by Evidence of Prosecution—"Times" Route Man Assaulted in the Seventh Ward.

Joe McNulty and I. F. McDonald, charged with robbing E. C. Lyon, March 21, were discharged from custody by Justice Chambers yesterday afternoon, the evidence not being considered sufficient to warrant holding them for trial.

Lyon declares that he drank with the two men in the Unique saloon at Second and Los Angeles streets, just before he was knocked down and robbed.

There was not the slightest corroborative evidence on the part of the witness to the satisfaction of the court by swearing that the clothes belonged to James McCarthy, who had cut his hand severely, and that the clothes had hung unmoved on the wall of his room for more than a year, where McCarthy had left them when he went to San Francisco.

All the witnesses for the defense testified that they had seen McNulty at the saloon, but that neither Lyon nor McDonald had been there.

McDonald also had several witnesses testify that he had been at his room on North Spring street, at the time the crime was committed.

Stealing Papers.

Fred Spreng, owner of one of The Times subscription routes, yesterday morning caught a boy stealing a paper from No. 540 San Pedro street.

The boy had been committing so frequently that Spreng was on the watch, and when he took hold of the boy, the latter made a great outcry and a crowd gathered. One big fellow in the crowd, a hanger-on about a saloon down there, assaulted Spreng and released the boy.

Yesterday afternoon Spreng swore to a complaint before Justice Austin, charging his assailant with assault. His name was not known and he was designated as John Doe.

Policemen.

Joe E. Covarubias, who stole clothing from the front of a Main-street

store, was given fifty days on the chain-gang.

Jacob Bolden was fined \$25 for abuse of a team of horses, an August Police, owner of the team, was told that the condition of the horses was such that he was liable to arrest at any time for compelling them to work.

John Wagenhauer was yesterday sentenced to 150 days for vagrancy, and Adelaida Sagado, a little Spanish girl who had consorted with him, was given 120 days, with sentence suspended. When arrested the man was suspected of robbery, but a case could not be made against him.

Chester A. Sullivan was yesterday brought back from the North and charged with embezzling \$7.15 belonging to his employer, F. A. Alexander. He pleaded guilty and will be sentenced today.

NOTED ACTOR GONE.

A brief dispatch to The Times of Wednesday announced the death, in San Francisco, of Denno Hirsch. He died suddenly from an apoplectic stroke. Mr. Hirsch, who had reached the advanced age of 73, was a tenor singer of European reputation, in his younger days, having sung in leading parts with Adelina Patti. Losing his voice in Russia, as a result of diphtheria, he became an actor, and achieved success in that profession. He came to the United States twenty-seven years ago. Although of Jewish birth, he had adopted the Catholic religion. He retained his mental and physical vigor to the last. Mr. Hirsch had been twice married, his second wife, who survives him, being a sister of Mrs. Harry Brook of Los Angeles.

FRIDAY'S SURPRISES

What a Monkey Sees a Monkey Does.

This applies very nicely to the way some cheap imitators copy Hamburgers advertising. They're always waiting for Hamburgers to surprise Los Angeles with merchandise bargains, and then in the "me too" style come forward with a 5 per cent. reduction in price, and a 50 per cent. reduction in quality. Commenting briefly on yesterday's cup and saucer sale our advertised price was \$1.36 in both the evening papers of Wednesday and Thursday Times. So the monkey imitators clipped less than a penny off our price, and says "me, too." While others may advertise "prices everlastingly the lowest" the public knows too well that "what others advertise" Hamburgers sell for less, so before 10 a.m. we were selling ACTUAL 25 and 30 cent cups and saucers at 6 1/2 cents, and thousands were sold at this price. The fact is that we have reliable information that ONE imitator stated that "what Hamburger did was good enough for him to follow, as Hamburgers were a successful firm." An imitation is sincerest flattery who can blame a monkey for doing what it sees others do?
